Kingdom Connects - Database "Bling" Checklist

Created: November 10, 2025
Purpose: Actionable steps to make the site fully functional and polished

■ EXECUTIVE SUMMARY

What's Working:
- ■ 58 HTML pages built across 5 dashboard systems
- ■ Clean 2-column stat grids on all 19 dashboard pages
- ■ Commission system architected (10/5/30/55 split)
- ■ Authentication system ready (temporarily disabled for preview)
- ■ All JavaScript modular and clean

What's Broken:
- ■ Homepage stats show "0" - no businesses/churches with `listing_status='active'`
- ■ Factoid rotation empty - no factoids collection data
- ■ Dashboards show mock data - Firestore fields inconsistent/missing
- ■ Commission tracking won't work - missing hierarchy fields

What Needs Doing:
1. **Database Field Cleanup** (15 mins) - Standardize field names
2. **Add Missing Fields** (10 mins) - Add commission & status fields
3. **Populate Core Data** (30 mins) - Add factoids, categories, samples
4. **Test & Verify** (15 mins) - Ensure everything displays properly

Total Time: ~70 minutes to full "bling"

■ PHASE 1: FIELD CLEANUP (Priority 1)

Problem: Duplicate/Inconsistent Field Names

Your 9 documents show the same data with different names. Pick ONE standard name.

Action: Run Firebase Console Batch Updates

1. Standardize Phone Fields
```
Collection: business_listings
Find: phone
Rename to: phone_number
```

2. Standardize Website Fields
```
Collection: business_listings
Find: website
Rename to: website_url
```

3. Standardize Pro Status
```
Collection: business_listings
Field: pro_status (boolean)
Keep as: pro_status (NO CHANGE NEEDED - this is the correct field name)
```

4. Standardize Church Reference
```
Collection: business_listings
Find: church_id OR home_church_id
Rename to: referring_church_id
```

5. Standardize Salesperson Reference
```
Collection: business_listings
Find: sales_agent_id
Rename to: referring_salesperson_id
```

6. Delete Junk Fields

```
Collection: business_listings
DELETE FIELDS:
- test (number)
- _field_priority (boolean)
- commissions (boolean)
```

■ PHASE 2: ADD MISSING FIELDS (Priority 1)

Problem: Commission system can't work without hierarchy fields

Action: Add These Fields to Firestore

business_listings - Add to ALL documents:

```
{
"listing_status": "active",
"referring_church_id": null,
"referring_salesperson_id": null,
"sales_director_id": null
}
```

churches - Add to ALL documents:

```
{
"listing_status": "active",
"monthly_commission_total": 0,
"ytd_commission_total": 0,
"total_commission_earned": 0,
"unpaid_commission_balance": 0
}
```

users (for sales roles only) - Add to sales agents/directors:

```
{
"sales_director_id": null,
"monthly_commission_total": 0,
"ytd_commission_total": 0,
"total_salesperson_commission": 0,
"total_sales_director_commission": 0
}
```

■ PHASE 3: POPULATE CORE DATA (Priority 2)

3A. Factoids Collection (Fixes Homepage Rotation)

Create Collection: `factoids`
Add 10-15 Documents like this:

```
{
"text": "Kingdom Connects tithes 10% of gross revenue back to churches and ministries,
supporting the Body of Christ.",
"active": true,
"display_order": 1,
"created_at": <timestamp>
}
```

Example Factoids:
1. "Kingdom Connects tithes 10% of gross revenue back to churches and ministries."
2. "Over 80% of church members prefer to support businesses owned by fellow believers."
3. "Pro businesses get 10x more visibility with photos, videos, and featured placement."
4. "Every Pro subscription generates recurring commissions for salespeople, directors, and churches."
5. "Businesses listed on Kingdom Connects never get deleted - just downgraded if payment lapses."
6. "The early church in Acts 2 shared everything in common - Kingdom Connects continues that legacy."
7. "Pro tier costs less than a Netflix subscription but supports eternal kingdom work."
8. "Churches can feature up to 5 businesses on their homepage for free."
9. "Annual Pro subscribers get a free Kingdom Connects T-shirt!"

10. "Every review, every share, every connection strengthens the Christian business ecosystem."

3B. Categories Collection (Fixes Business Directory)

Create Collection: `categories`
Add 20-30 Documents like this:

```
{
"slug": "plumbing",
"label": "Plumbing Services",
"active": true,
"display_order": 10,
"created_at": <timestamp>
}
```

Essential Categories:
- Automotive (Auto Repair, Car Sales, Detailing)
- Construction (General Contractor, Electrician, Plumbing, HVAC, Roofing)
- Professional Services (Legal, Accounting, Real Estate, Insurance)
- Health & Wellness (Medical, Dental, Chiropractic, Counseling)
- Home Services (Cleaning, Landscaping, Pest Control, Pool Service)
- Food & Dining (Restaurants, Catering, Bakery, Coffee Shop)
- Retail (Clothing, Gifts, Bookstore, Grocery)
- Beauty & Personal Care (Hair Salon, Barbershop, Spa, Nail Salon)
- Technology (IT Support, Web Design, Computer Repair)
- Education (Tutoring, Music Lessons, Day Care)
- Creative Services (Photography, Graphic Design, Marketing)
- Financial Services (Banking, Financial Planning, Tax Prep)

3C. Commission Policies Collection (Fixes Commission System)

Create Collection: `commission_policies`
Add 1 Document (ID: "default"):

```
{
"policy_id": "default",
"church_percentage": 10,
"salesperson_percentage": 5,
"director_percentage": 30,
"kc_percentage": 55,
"is_active": true,
"created_at": <timestamp>,
"updated_at": <timestamp>
}
```

3D. Sample Businesses (Makes Stats Real)

Create Collection: `business_listings`
Add 5-10 Documents with COMPLETE data:
Example 1: Smith Plumbing (Pro Business)

```
{
"business_name": "Smith Plumbing & Repair",
"your_name": "John Smith",
"email": "john@smithplumbing.com",
"phone_number": "(555) 123-4567",
"website_url": "https://smithplumbing.com",
"description": "Christian-owned plumbing serving Tampa Bay for 20 years. Licensed, insured,
and committed to excellence.",
"address_line1": "123 Main Street",
"address_line2": "Suite 100",
"city": "Tampa",
"state": "FL",
"zip_code": "33602",
"country": "USA",
```

```
"primary_category": "plumbing",
"categories": ["plumbing", "emergency-services"],
"listing_status": "active",
"is_active": true,
"is_visible": true,
"pro_status": true,
"pro_start_date": <timestamp 30 days ago>,
"pro_end_date": <timestamp 335 days from now>,
"referring_church_id": "first_baptist_tampa",
"referring_salesperson_id": "user123",
"sales_director_id": "director456",
"allow_reviews": true,
"allow_social_sharing": true,
"show_phone": true,
"show_email": true,
"show_address": true,
"show_website": true,
"review_count": 12,
"average_rating": 4.8,
"created_at": <timestamp 6 months ago>,
"last_updated": <timestamp today>,
"owner_uid": "firebaseAuthUid123",
"social_media": {
"facebook": "https://facebook.com/smithplumbing",
"instagram": "https://instagram.com/smithplumbing"
},
"show_social_media": true,
"hours_of_operation": {
"mon": {"open": "08:00", "close": "17:00"},
"tue": {"open": "08:00", "close": "17:00"},
"wed": {"open": "08:00", "close": "17:00"},
"thu": {"open": "08:00", "close": "17:00"},
"fri": {"open": "08:00", "close": "17:00"},
"sat": {"open": "09:00", "close": "13:00"},
"sun": {"open": null, "close": null}
}
}
```

Create 5-10 more businesses with variety:
- Mix of Pro (pro_status: true) and Free (pro_status: false)
- Different categories
- Different cities
- All with `listing_status: "active"`

3E. Sample Churches (Fixes Homepage Stats)

Create Collection: `churches`
Add 3-5 Documents with COMPLETE data:
Example: First Baptist Tampa

```
{
"church_name": "First Baptist Church of Tampa",
"denomination": "Baptist",
"description": "A vibrant community of believers serving Tampa Bay since 1950.",
"address_line1": "456 Church Avenue",
"city": "Tampa",
"state": "FL",
"zip_code": "33603",
"country": "USA",
"contact_email": "info@firstbaptisttampa.org",
"contact_phone": "(555) 234-5678",
"website": "https://firstbaptisttampa.org",
"sunday_service": "9:00 AM, 11:00 AM",
"wednesday_service": "7:00 PM Bible Study",
"other_services": "Youth Group Fridays 6PM, Men's Breakfast 1st Saturday",
"parishioner_count": 450,
"listing_status": "active",
"submission_date": <timestamp>,
"allow_reviews_for_church": true,
"allow_social_sharing": true,
"show_social_media": true,
```

```
"social_media": {
"facebook": "https://facebook.com/firstbaptisttampa",
"youtube": "https://youtube.com/@firstbaptisttampa"
},
"monthly_commission_total": 0,
"ytd_commission_total": 0,
"total_commission_earned": 0,
"unpaid_commission_balance": 0,
"admin_uid": "churchAdminUid789",
"created_at": <timestamp>,
"updated_at": <timestamp>
}
```

Create 3-5 churches with:
- Different denominations
- Different cities
- All with `listing_status: "active"`

3F. Sample Reviews (Makes Businesses Look Real)

Create Collection: `reviews`
Add 10-20 Reviews across different businesses:
Example Review:

```
{
"business_id": "smith_plumbing_001",
"user_id": "user456",
"reviewer_name": "Sarah Johnson",
"rating": 5,
"review_text": "John and his team were amazing! Fixed our water heater emergency on a Sunday.
Honest pricing and excellent Christian service.",
"status": "approved",
"created_at": <timestamp 2 weeks ago>,
"business_name": "Smith Plumbing & Repair",
"church_name": "First Baptist Church of Tampa"
}
```

■ PHASE 4: TEST & VERIFY (Priority 3)

What to Check:

1. Homepage Stats (index.html)
- [ ] "Active Businesses" shows real number (not 0)
- [ ] "Active Churches" shows real number (not 0)
- [ ] Factoid rotates every 8 seconds with real content

2. Business Directory (business-directory.html)
- [ ] Businesses display with proper categories
- [ ] Search/filter works
- [ ] Click business → detail page loads

3. Church Directory (church-directory.html)
- [ ] Churches display
- [ ] Click church → detail page loads

4. Business-Admin Dashboard
- [ ] Stats show real numbers
- [ ] Can edit listing
- [ ] Can manage categories

5. Church-Admin Dashboard
- [ ] Stats show real numbers
- [ ] Can feature businesses
- [ ] Commissions tab shows $0 (waiting for payments)

6. Sales Dashboard
- [ ] Stats show real numbers
- [ ] Commissions show linked businesses
7. Admin Dashboard
- [ ] All users visible
- [ ] All businesses visible
- [ ] All churches visible
- [ ] Factoids manager works
- [ ] Commission settings shows 10/5/30/55 split

■ QUICK WIN PRIORITIES

IF YOU ONLY DO 3 THINGS:
1. **Add** `listing_status: "active"` to ALL businesses and churches
- Fixes homepage "0" stats immediately
2. **Create factoids collection** with 10 factoids
- Fixes homepage rotation immediately
3. **Create categories collection** with 20 categories
- Fixes business directory immediately
TIME: 20 minutes for all three = site looks ALIVE

■ AFTER DATABASE IS POPULATED

Enable Authentication

```
// church-admin pages - remove this line:
// Authentication temporarily disabled for preview
```

Enable Firebase Storage

- Dave needs to activate Storage in Firebase Console
- See: FIREBASE-STORAGE-SETUP.md

Set Up Stripe

- Integrate Stripe for Pro payments
- Configure webhooks for commission calculations

Deploy to Production

- Run: `firebase deploy`
- Custom domain setup
- SSL certificate
- Go live!

■ SUCCESS METRICS

You'll know it's "bling" when:
- ■ Homepage stats show real numbers (not 0)
- ■ Factoid rotates every 8 seconds
- ■ Business directory has 5-10 real businesses
- ■ Church directory has 3-5 real churches
- ■ All dashboards show real data (not mock)
- ■ Categories dropdown has 20+ options

- ■ Reviews display on business pages
- ■ Commission system calculates properly

■ DAVE'S ACTION PLAN

TODAY (Nov 10):

1. ■ Review FIRESTORE-MASTER-SCHEMA.md for field standardization
2. ■ Pick ONE field name for each duplicate (phone_number, website_url, etc.)
3. ■ Log into Firebase Console

TOMORROW (Nov 11):

1. Run field cleanup (Phase 1) - 15 mins
2. Add missing fields (Phase 2) - 10 mins
3. Create factoids collection - 10 mins
4. Create categories collection - 10 mins
5. Add 5 sample businesses - 15 mins
6. Add 3 sample churches - 10 mins
7. Test homepage - 5 mins
8. **CELEBRATE - SITE IS BLING! ■**

TOTAL TIME: ~75 minutes from zero to hero

Last Updated: November 10, 2025
Status: Ready for Dave's Firebase work
Next Step: Firebase Console → Batch field updates → Data population
